Design with Canvas

**While colour has the power to create mood and
redefine space, texture brings alive a feeling,
completing the whole experience; bringing it alive.**

Now, take your bathroom design to the next level of sophistication and style with the BathSense Canvas Luxury Collection. An avant-garde approach to bathroom interiors. This luxurious colour-coordinated range brings together sanitaryware, vanities, CP fittings, and tiles by leading architects, interior designers, and technical experts.

Choose from an array of stimulating, colour-based finishes that will elevate any

design theme while protecting and extending the life of your bathroom fittings. Think matte, glossy, smooth or rustic. Use colour and finish to complement your bathroom size and dimensions, taking into account trend, theme, lighting, durability, other, and specific preferences.

Brought to you by Asian Paints BathSense, the Canvas luxury collection is available in associated showrooms across India, and showcases the future in bathroom décor.

*“In a way, the blank canvas
represents the infinity of
trying to use colour to express
emotions - to assign a
linguistic function to colour.”*

- Guido Molinari

Magnetic Monochrome

Never underestimate the confidence of simplicity. The minimalism of monochromatic decor is strikingly bold, and complements any theme from traditional to ultra modern.

Single colour styling easily makes any space look professional and offers the flexibility to work with varying contrasts. In fact, with varying textures and tones to play with, there's nothing muted or monotonous about this effect. Especially when it comes to making smaller spaces appear larger, you can't go wrong with this look.

Rose Blush

Often called the 'new neutral', Rose Gold has an allure that is undeniable; a perfect balance of opulence and comfort. This rare metallic that began as a colour trend is now here to stay.

Naturally ethereal, Rose Gold lends itself to a range of design themes from vintage, retro to cosmopolitan, natural, and even bohemian. Emerging from rich palettes like blush pink, warm copper and gold glow, it offers a finish that is universally flattering. Rose Gold says that you are fashion-forward, and you care about aesthetics. What makes this tone so loved and enduring, is its effortless sense of luxury.

Earl Grey

Grey comes with the advantage of being both a neutral as well as an accent, making it a versatile and increasingly popular interior design choice.

This colour palette brings calmness, elegance and stability, and works well with traditional and contemporary themes. Ranging from cool shades of pebble and stone to deep charcoal and slate, any avatar of grey can add stateliness to your space.

Red Rapture

This is a power colour.
Where there is red, there is passion for
style, and life.

Just a hint of red is enough to bring in an
element of surprise and thrill. That's what
makes this finish so great. It's bold,
adventurous, and sure to stand out against
any backdrop.

Whether it is crimson bright or mature
merlot, any shade of red can add warmth
and drama to your space.

Midas Touch

Nothing says luxury like the colour gold. Even the slightest hint of this tint can make a grand statement. That's the influence of this opulent finish.

Both timeless and trendy, the glamour of this metallic beauty brings both richness and warmth to any bathroom theme. By very nature of its decadence, gold is sure to add depth and presence to your space.

Golden Sands

When it comes to colours, you can't get a more trusted friend than beige. Going from classic creams to comforting taupes, earthy sands to exquisite golds, this classic, dependable tone is equally versatile, and neutral enough to get along with a wide range of design themes and shades.

As a finish, it brings the warmth of brown as well as the cool elegance of white, and evokes an equally vast range of moods that are both calming, and sophisticated.

HYDROPHOBIC TECHNOLOGY

Benefits

Hydrophobic' or water-repellent coating used on the faucets in Canvas collection have a higher contact angle as compared to equivalent chrome-plated brass faucets. This results in a higher tendency to repel water from the surface of the faucet, leading to the following benefits:

Prevents hard water scaling and spots

The water repelling property of the coating reduces water sticking on the surface. Making the coated Faucets less prone to scale build-up caused by hard water. The hydrophobic coating seals the weak spots on the surface, sensitive to corrosion. Therefore, the faucet will be more resistant to peel off, stains etc. induced by hard water.

Easy to remove germs from the surface

The hydrophobic nature of the coating helps in easy removal of the bio-film or microbial growth.

Higher corrosion resistance for long-lasting beauty

Hydrophobic coating protects the weak spots sensitive to corrosion and overall faucet. Corrosive species like chemicals and salts cannot easily penetrate through the coating, thereby preventing corrosion for longer time. The coating is also tolerant to soap solutions and mild detergents*. They will therefore have a higher durability under extreme water and environmental conditions. Coated products can withstand CASS test duration which is greater than 3 times of the industry standard of 48 hours.

Easy to clean

The water repellent characteristics of the coating makes it easier to clean, without the use of cleaning agents. The surface can be wiped dry with a soft cloth, and it can remain spot-free for a longer time.

*Do not use abrasives like scrub-pads to clean the surface. To be cleaned only with a soft cloth and mild soap solution. Refer Warranty card for more details.

Warranty Terms and Conditions:

1. The warranty period is not renewed or extended on supply of spare parts during the warranty. The Company will, at its sole discretion, repair or replace any defective component or part of product with or without cost.
2. The warranty shall commence on the date that the consumer telephonically lodges his warranty with the Company by contacting 1800-266-2079 or visiting the website bathsense.asianpaints.com and furnishing all the purchase and personal details requested by the Company ("the Commencement Date"), within 15 days of purchase.
3. The Company or its Authorized Service Franchisee solely can service/repair the Product.
4. The warranty becomes null and void if installation is not done by a qualified and experienced technician and/or as per the installation procedure laid down by the Company.
5. Hoses, rubber parts, plastic parts and consumables are not included in warranty. In case of defects on such products arising prior to installation, the company will decide on repair/replacement after inspection.
6. This warranty is only effective if proof of purchase (original sales receipt) is provided with all warranty claims or requests.
7. Warranty will cover only manufacturing defects of the product and will not cover any defects arising out of the control of the Company, like insufficient water pressure, high water impurities/hardness, breakage of parts due to excessive force etc. In no event shall the liability of the Company exceed the purchase price of the Product. Improper care and cleaning will void the warranty.
8. For optimum bathing experience, maintain a minimum water pressure of 1 bar (10 psi) and maximum of 5 bar (50 psi). In case of lower/higher pressure, use of external pressure pumps or pressure reduction valves respectively is recommended.
9. Do not use cleaners/detergent agents which contain Chemicals/Bleach/Acid etc. Most of the toilet cleaning products have high acidic content, which may damage the product surface/finish.

Maintenance, Installation & Service Guidelines:

1. The protective coating prevents the accumulation of water droplets, makes the product easy to clean and eliminates the need for abrasive cleaners.
2. Clean the surface using only a soft sponge. Cleaning pads labeled as "Safe For Non-stick products" are recommended.
3. DO NOT use abrasives/scrubs/coarse cloth/scouring agents to clean. Use of the same can damage the coating and will make the Warranty void.
4. DO NOT use bleach/acids/toilet cleaning agents on the product. Use of the same can result in Fading of the colour and will make the Warranty void.
5. Warranty is valid under normal. operating conditions of water quality with below limiting values: TDS≤800 mg/L, Hardness≤ 375 mg/L.
6. It is recommended to Wipe the product dry using a soft cloth immediately after cleaning with water, to maintain the colour.
7. The handle can be opened using allen key provided with the product; DO NOT use sharp tools like a spanner or hammer on the colour coated surfaces of the product.
8. Installation to be done by a professional as per above instructions. Dismantling and service of the product post installation should be done.
