# A HOME NEW WORLD

*Recalibrating the home ecosystem*

COLOUR TREND 02

*Home today feels like an entire ecosystem where worlds that were otherwise separate, now collide. As we hack our spaces to serve new needs, we demand solutions that are accessible, multifunctional and adaptable. A Home New World represents a mindset change in how we relate to our home and work spaces.*

Remote working is no longer a fringe activity. Catalysed by the pandemic, our work culture has drastically changed. Schooling, working, cooking, exercising, conferencing, hobbying and resting – all of it happens in physical proximity often simultaneously. As we acknowledge the impermanence of life, we need spaces that accommodate these changes. This impacts the future of product and space design towards solutions that help us self-sustain.

# COLOUR & MATERIAL FORECAST

TREND 02 | A HOME NEW WORLD

## A balance of Soothing and Uplifting

Caught in the frenzy of everyday life while staying indoors, the cooling colour palette of A Home New World uplifts your space and your mood; a daily dose of inspiration and something to pleasantly distract you from the routine. Fresh and punchy **Aboli-N** and **Italian Olive** instantly jolt your energy while the deep and resolute **Ashberry**, and clear and soothing **Alliance** provide the much-needed positive respite. The neutral browns of **Soothing Silk** and **Irish Crème Coffee-N** hold the palette together like those mid-day pauses that help you centre yourself.

The material palette for A Home New World is inspired by materials seen in products that adapt well to work and 'home' spaces, and seamlessly fit into an existing setup. The versatility and vibrancy of **Painted Metal**, used indoors and outdoors, is contrasted by the cozyness of **Flannel**. The comforting light brown of **Birch Ply** used often in mass-produced indoor furniture, and soft rugs made of **Natural Wool** are popular additions to work-from-home settings. The exposed concrete-like texture of **Royale Play Wall2Floor** anchors assorted spaces with varied decor. Meanwhile, the subtly repetitive veins of **Last Summer from Nilaya Bluebell** comfort us, like soft jazz after a crazy day.

## TIPS TO CREATE A HOME NEW WORLD LOOK

### PLUG-N-PLAY SYSTEMS

**Ft. Shelf-board system**  
by KUR!O

Modular shelving unit that gives you the freedom to re-design it over and over with ease and fun. Combines a simple plug'n'play system with a sturdy and timeless design.

### MOBILITY & EFFICIENCY

**Ft. Greenhouse Trolley**  
by SPIN

Part of SPIN's Home Office Collection, The Greenhouse garden trolley is an edgy home accessory with high utility quotient. It's sheet metal, pipes and perforations are an interesting display of a hundred percent metal construct.

### COMPATIBLE WITH EXISTING SPACES

**Ft. Modular Storage**  
by Lozi Design

Made from Birch Ply. Perfect for any contemporary home. Sold in sections, with either curved corners or squares, this system can be put together and set up to fit any space.

### MULTI-FUNCTIONAL FURNITURE

**Ft. Alexis lift-up coffee table**  
by Asian Paints

With its unique foldable functionality and storage space, this centrepiece blends modern style with convenience. Comes in a variety of colours, under The Maison Collection of Ador Furniture by Asian Paints.

### FLAT PACK AND DIY PIECES

**Ft. Butterfly Chair**  
by Mianzi Global

Designed such that users can easily assemble it by using a simple Allen Key Tool. Made of bamboo, flat packed, easily stackable, lightweight and affordable.

### PERSONAL & ELEGANT

**Ft. Ample Desk**  
by Desktalk

Designed with precision so that all the pieces press-fit into each other, this desk can be self-assembled easily without any hardware in less than 10 minutes.

### COMFORT FIRST

**Ft. Reversible Quilt**  
by House of Ekam

This Dohar (muslin quilt) by House of Ekam, with a layer of flannel sandwiched between the 2 layers of mul, is super soft & snugly and perfect as a throw or a light coverlet. Best part – it's reversible, hence giving you 2 different looks.

“ In our personal and professional lives, we are constantly hit with one adversity after the other, most of which we have no control over. But the four things we have total control over is how we react, how we adapt, how we breathe, and how we take action. ”

*Diamond Dallas Page*
