

PRODUCT CODE AD01A003

Loctite Rapid

Asian Paints Loctite Rapid is a quick-setting, clear, two part epoxy adhesive that bonds a wide range of materials

PRODUCT BENEFITS

Speed

Extremely fast bonding with 5 minutes open time

Syringe Pack

Innovative syringe pack extrudes resin and hardener in exact proportions and prevents wastage. Application tool available with bulk packs.

Optical Clarity

Optically clear appearance makes it usable in applications where clarity is required

High Strength

Develops high strength compared to standard epoxy adhesive upon full cure

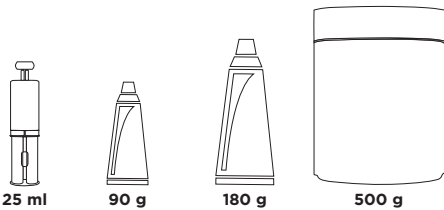

LEAD FREE* GUARANTEE

* All Asian Paints products contain no added Lead, Mercury, Arsenic or Chromium from April 2008.

METAL

HOW TO APPLY

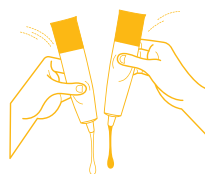

PRE-APPLICATION STEPS

Roughen, dry and degrease surfaces to be bonded

APPLICATION PROCESS

STEP 1

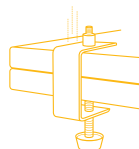

Squeeze out equal amounts by volume of both parts onto a clean mixing surface.

STEP 2

Mix thoroughly

STEP 3

Apply to both surfaces. Press the two surfaces together and join with clamps for 5 minutes.

STEP 4

Reseal the resin and hardener tubes with their respective caps.

ADDITIONAL INFORMATION

SAFETY FEATURES

- Store the container with the lid tightly closed in a cool, dry place
- Keep out of reach of children and away from eatables.
- May be harmful if swallowed. In case of ingestion immediately seek medical attention.
- Wear eye protection during application. In case of contact with eyes, rinse plenty of water and seek medical advice.
- In case of skin contact immediately wash skin with soap and plenty of water. Get medical attention if irritation develops or persists.
- Do not breathe vapour or spray. It is recommended to wear suitable nose pad during sanding and surface preparation to avoid dust inhalation
- Do not pour leftover adhesive down the drain or in water courses.
- In the event of spills, contain spillage using sand or earth.

TECHNICAL DETAILS

- Form: Two-pack gel/viscous fluid
- Shelf Life: 24 months from date of manufacture
- Storage Temperature: 12-25 degree C
- Open Time: 5 minutes

PRECAUTIONS

- Avoid using more than the prescribed quantity of adhesive, as a thick layer between the bonding surfaces may affect the bond strength
- Avoid reverse fitting (in case of syringe pack) or interchanging resin and hardener tube caps to avoid contamination of adhesive in the pack
- While using the syringe pack, always break the stopper before snapping open the nozzle tip
- Do not mix the resin and hardener with your hands.
- Not recommended for usage on rubber or paper
