WATER BASED

asianpaints

LEAD FREE* GUARANTEE

* All Asian Paints products contain no added Lead, Mercury, Arsenic or Chromium from April 2008.

PRODUCT BENEFITS

Asian Paints Professional Primer (WT) is a water-based undercoat and has the following product benefits:

- a) A good adhesion for the entire paint system thereby increasing the life of the system
- b) Good whiteness, coverage and flow and levelling properties

c) Good sealing properties which ensure a smooth deposition of the paint film

d) Environment friendly, contains no added lead, cadmium, mercury or arsenic

PRODUCT FEATURES

AVAILABLE PACKS

Shelf life: 3 years from date of manufacture in original tightly closed containers away from direct sunlight and excessive heat.

COLOURS AVAILABLE

White

Please note: Asian Paints Professional Primer (WT) is an undercoat

COVERAGE

On smooth masonry surface by brushing

1 COAT

215 - 270 sq.ft/ltr**

**Actual coverage may vary from the quoted coverage due to factors such as method and condition of application and surface roughness and porosity.

DRYING TIME TO RECOAT

RECOMMENDED USAGE

It can be used for priming plastered walls, asbestos, cement, concrete, etc.

HOW TO APPLY

PRE PAINTING STEPS

PLASTER New masonry surfaces must be allowed to cure completely. It is recommended to allow 28 days as the curing time for new masonry surfaces.

CLEANING Ensure that surface is completely free from all dirt, loosely held plaster, powdery residue, oil, grease or any other contamination. Any previous growth of fungus, algae or moss needs to be removed thoroughly by vigorous wire brushing and cleaning with water. One coat of Asian Paints SmartCare BioBlock is recommended to prevent further growth of algae, fungus or moss.

FILLING FOR CRACKS For filling cracks upto 3mm use Asian Paints Smart Care Crack Seal.

FILLING FOR HOLES & DENTS In case of dents and holes use Asian Wall Putty or white cement and fine sand in the ratio 1:3
