Smart Tips

To help consumers get the best of out of our products, Ess Ess by Asian Paints has evolved a set of guidelines, which if followed ensure optimum and trouble-free performance with enhanced durability of Ess Ess products for years to come.

The guidelines are:

DURING INSTALLATION

- Use 25 mm pipeline instead of 20 mm to ensure better flow of water. Lay the pipelines straight and vertical as far as possible.
- More than required number of bends throttle the pressure of water. Keep the number of bends in the pipelines to a minimum. All the supply lines must have vent pipes which helps in giving a smooth flow of water from the fittings.
- Center to center distance of pipe fitting for Hot & Cold inlet for all types of wall mounted mixtures should be maintained at 165 mm by which any of our wall mixers can be easily installed without any problem.
- Place the outlet point in the overhead tank atleast 2.5 cm above the ground level of the tank. This prevents the flow of foreign particles, sand, etc. along with water supply into the fittings avoiding the possible damage to the working parts.
- For optimum bathing experience, maintain a minimum water pressure of 1 bar (10psi) and maximum of 5 bar (50 psi). In case lower / higher pressure, use of external pressure pumps or pressure reduction valves respectively, is recommended.

POST INSTALLATION

- Cover the taps polypack before or after their installation till they are put to actual use to protect the fine finish of fittings from dirt, stains and other damages.
- Do not use harsh cleaning agents containing abrasives and acids. Instead use a soft sponge or wet cloth with soapy water / diluted vinegar to protect the colour finish.
- Clean the aerators provided in the items at regular intervals for a perfect flow of water from the fittings. To clean the aerator, remove it, knock out the silver insert and rinse thoroughly with water.
- Clean the overhead tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular intervals to avoid deposition of foreign particles. To avoid any foreign material to pass through the tap use jalli.

An ISO 9001-2008
CERTIFIED COMPANY
ESS ESS Bath Fitting Pvt. Ltd. is now a certified
ISO 9001-2008 company. The certification was
given by The Certification Body of
TUV Rheinland India Pvt. Ltd.

Green Building Concept

Considering the Green Building Awareness and Promotion's Ess Ess is happy to announce after all our products (Except concealed, flush valves, divertors & stop cocks) now come with following Flow Controllers: 1.8L/min, 4L/min, 6L/min, 8L/min, 10L/min & 12L/min.

EXCLUSIONS

- a) Single Lever Divertors and 4-Way Divertors are not supplied with any flow regulator, because these are meant for supply to Overhead Showers or Spouts. Regulators for Overhead Showers and Spouts are available separately.
- b) Similarly Concealed Stop Cocks are meant for supply to Basin Mixers/Geysers/ Pipeline and Regulator is provided at outlet point.

PRICING

Additional Cost to be Charged Extra Rs.150/- Per Product

Sensors & Electrical Equipment	1 year	1 year

*Includes products covered under "Essentials" in the product catalogue.

**Pls note all brass concealed bodies, even though covered under "essentials" will have 10 year warranty.

The warranty period is not renewed or extended on supply of the spare parts during the warranty. The Company will at sole discretion, repair or replace any defective component or part of product with or without cost.

- The warranty shall commence on the date that the consumer telephonically lodges his warranty with the Company by contacting 1800-266-2079 and furnishing all the purchase and personal details requested by the Company ("the Commencement Date"), within 15 days of purchase
- The Company or its Authorized Service Franchisee solely can service/repair the Product.
- The warranty becomes null and void if installation is not done by qualified and experienced technician and/or as per the installation procedure laid down by the Company.
- Hoses, rubber parts, plastic parts and consumable are not included in warranty. In case of defects on such products arising prior to installation, the company will decide on repair / replacement after inspection.
- This warranty is only effective if proof of purchase (original sales receipt) is provided with all warranty claims or requests.
- The warranty will cover only manufacturing defects of the product and will not cover any defects arising out of factors out of control of the Company like insufficient water pressure, high water impurities/hardness, breakage of parts due to excessive force etc In no event shall the liability of the Company India exceed the purchase price of the Product. **Improper care and cleaning will void the warranty.**
